Height of Dam: NORTH-WEST≈ NORTH-EAST≈ SOUTH-WEST≈ SOUTH-EAST≈
Area Inundated: 94311.00 NW NE SW SE NW NE SW SE NW NE SW SE NW NE SW SE

Small Dam Required?: No

=====

OTHER COMMENTS*****

=====

Under the Welby Jacob Exchange the Jordan Valley Water Conservancy District entered into an agreement to purchase stock of the Provo Reservoir Water Users Company which serves the Welby and Jacob districts. The Welby and Jacob water has been delivered from the Provo River through the Provo Reservoir Canal and used to irrigate land on the west side of the Jorand River in Utah and Salt Lake Counties. The water hereafter, will be used for municipal purposes within the service area of the Jordan Valley Water Conservancy District. This water is covered under change application numbers 55-7899 (a14709), 35-8739 (a15038), and 35-8740 (a15039). In exchange for the waters of the Welby and Jacob districts the Jordan Valley Water Conservancy District has acquired shares of stock or portions of water rights from companies which hold water rights in Utah Lake and Jordan River, and will deliver annually these portions of the Utah Lake and Jordan River water to the Welby and Jacob districts to replace their Provo River water. Such replacement water is covered by change application numbers 59-5268 (a15002), 59-5269 (a15003), 59-5270 (a15004), 59-5271 (a15005), 59-5272 (a15006), 59-5273 (a15007), 59-5379 (a15015), 59-5644 (a16037), and 59-5395 (a17438). These shares of stock and portions of water rights have been transferred to the Welby Jacob Water Users Company.
